Teo Can Senödeyici iz Anglije je zapisal:

It was fun. It was interesting how they did
the experiments. The oldest book there was very small.

I ate two cones of ice-cream, one was chocolate
and the other was vanilla ice-cream. For a
present they gave us each a book and a news-
paper about their school. They also made a toothpaste
for elephants. When they put jire on the end of
a stick and it glowed. I had a fun time.
At the end I was very full from the sweets.
