### PROJECT IN DETAILS

Every day we are warned by the media that we are drowning in trash and that it is high time we changed our habits. Our oceans are full of plastic, sea animals are dying eating microplastic, plants are adapting or disappearing. It is time that mankind takes some serious actions and accepts responsibility for our planet.

This year's project is especially intended for older pupils who would like to do a research on the topic. All applicants are also welcome to write literary pieces.

Mentors, support and encourage your pupils to be creative and inventive.

Encourage your pupils to write news coverages, articles, interviews, stories and poems. Best pieces will be published in our booklet at the end of this school year.
